SECOND CAFÉ THANKS LOCATION IN THE HEART OF SEOUL, KOREA.

Duluth, GA and Seoul, Korea - 29 Sep. 2017 : TMPOS, Inc. (OTC: TPPM)

TMPOS, Inc. proudly opened its second corporate operated chain store, Café Thanks, in Nam-yang-Ju, South Korea on September 29, 2017. TMPOS is a point-of-sale (POS) payment solution provider which utilizes the customer relationship management (CRM) platform developed by our affiliate company, EsolutionTG. Continuing with the success of the grand opening of our first Café Thanks location in Gangnam on August, TMPOS is planning to add three more stores by early 2018 in Duluth (Georgia), Fort Lee (New Jersey), and Los Angeles (California). Café Thanks corporate operated stores will be proof to demonstrate TMPOS system's excellence as a multi-store cloud management Point-Of-Sale system.

Located on beautiful landscapes, our Café Thanks in Namyangju has magnificent mountain views and houses a large sitting area with a fully equipped kitchen and coffee bar. It is ideal for a variety of purposes ranging from family gathering to business retreat. At this Café Thanks location, we will begin to incorporate Thanks Payout as a variety payment solution. Café Thanks business creates great opportunities and benefits for TMPOS' affiliate companies such as Tresmore and Thanks Digit. Café Thanks locations will accept Trespass and Thanks Coin as forms of payment, which will enhance the acceptability and value of those digital currencies of affiliate companies.

TMPOS strives to develop Café Thanks as an unprecedented ‘Smart Meeting Point’ on which its visitors can rely to provide the ultimate environment for both casual and formal business functions. In addition to providing the ‘Smart Meeting Point’ in Café Thanks, TMPOS successfully installed the company’s most advanced and innovated POS system with our own CRM solution software (Customer Relationship Management), designed and powered by ThanksMatrix and developed by one of our core subsidiaries, EsolutionTG.

TMPOS is excited to introduce our updated POS system which is designed to be well suited for any retail business model and provides traditional payment solutions, CRM (Customer Relationship Management), AIS (Account Information System) and WM (Workgroup Management) which are accessible anywhere, anyplace, and anytime because it uses cloud storage. Moreover, our POS system provides one of the most advanced digital currencies called ‘TresPass’ using TresWallet in the payment system at Café Thanks. Currently, TMPOS is developing another form of digital payment called ‘Thanks Coin.’ We will continue our efforts to create more value for all customers.
